Tamur River Rafting

Introduction

Probably the best combination trip in Nepal-magnificent white water, a beautiful unspoiled valley, combined with one of the most scenic treks in Nepal. The Tamur and its tributaries drain the snows of Kanchenjunga third highest peak in the world. The river is the sixth largest river in Nepal and seems to have a feeling of thrusting power and of being constrained by its valley sides. The first commercial run of the Tamur was in 1990 and there have been very few descents since then.

It is an outstandingly beautiful river with superb views of the Himalayan range including Mt. Everest, Mt. Kanchenjunga and Mt. Makalu. The river trip includes around 120 km descent through more than 100 of the most exciting rapids still to be named has to offer grade 3 to 4, with some graded -5, making one of the best white water expedition trips in the world.

The trip starts with an internal flight or drive from Kathmandu to Biratnagar in the far South-East of Nepal. We take a private bus drive to Basantapur in the Tehrathum Region, where we camp overnight. The following day, we begin an awe-inspiringly beautiful 5-day trek to Dobhan through the remote Taplejung region of Eastern Nepal. From Dobhan we begin the exhilarating trip, which includes a day relaxing on a remote river beach or an optional one-day trek visiting local villages. The Tamur is best tackled between October and November, and February and May. Finally, there's an overnight drive by private bus or an optional internal fly back to Kathmandu.

trekking in the world. Treks vary from high altitude routes some of which visit base camps used by mountaineering expeditions to easy short treks within the Kathmandu Valley and lower hill country where you'll travel through pretty villages, subtropical lowlands, vast meadows and forests, fast flowing rivers, deep canyons and even the cold and barren regions at the feet of the great mountain peaks. The views change with the seasons, with different stages of planting and harvesting cycles in the villages and valleys and the brilliant display of wild flowers in spring and autumn.

Trekking with us means an adventure walking holiday, with a small group of other trekkers, led by an experienced and professional English speaking local guide. We use professionally trained and experienced local Sherpa guides or Sirdars on our treks, tours and expeditions and are totally confident in their ability and experience. Local guides are integral to providing you with the best travel experience. Not only can they share local knowledge and insights, at the same time as you travel you are contributing to the local economy and supporting local communities at the same time as you travel. Whatever route you choose, you'll be sure to meet local people and enjoy stunning landscapes as you walk at your own pace through well established village trails. Whilst some of the popular trekking trails are used by climbing expeditions on their approach marches, most have been used for hundreds of years by the local Nepalese for everyday travel and trade.

Teahouse Trekking

On the more popular treks in Nepal, particularly in the Everest, Langtang and the entire Annapurna regions, enterprising villagers have built teahouse lodges, similar to European style alpine lodges offering simple but comfortable accommodation and food. We offer a selection of single/twin sharing rooms in the best available lodges run to a high level of service. We also supply a four season sleeping bag and cotton liner free of charge on our teahouse treks. Hire of other key items if needed can be arranged in advance. During the trek you'll have 3 meals a day, with a mixture of European and Asian style dishes and large portions. Soft drinks, sweets, mineral water and alcohol are not included.

Fully provisioned camping style trekking

This type of trek is staffed by a full Sherpa crew including a Sirdar (head man), cook and assistants. Porters, yaks, horses or mules carry your main baggage. It is the Sherpa crew's job to perform all the camp work, from setting up to providing freshly made meals, to leaving the site clean on departure. We provide twin share dome or A frame sleeping tents, a kitchen tent, mess tent and toilet tent. We also provide tables, chairs or stools, lanterns/candles, thin sleeping mattresses and all crockery and cutlery as well as a fully equipped kitchen set up. The Sherpa crew will cook, wash up, and provide hot water for washing and tea and coffee at night and for your wake up call. Food is a mixture of Asian and Western

dishes, with lots of choice, freshly prepared. As with teahouse trekking you can expect 3 main meals each day. Soft drinks, sweets, mineral water and alcohol are not included.

A few of our teahouse treks involve crossing high passes and necessitate camping for a couple of nights. We provide full camping services for these nights including providing four season sleeping bags.

Our Grading System

In Nepal, the trails often zigzag with plenty of ascents and descents and it is better to think in terms of hours spent walking rather than miles covered. A typical day's walking is from five to seven hours with a number of ascents and descents. This includes a one hour lunch stop, a comfortable pace of walking and time to enjoy your surroundings.

We use four grades for our treks, intended to give you a general sense of what to expect and to help you choose which adventure will suit you best. Factors such as weather conditions, altitude, fitness level, experience, interests and how you feel on a particular day all contribute to how easy or strenuous you find a trip. If you're unsure of whether a trek is suitable for you just contact us before making your booking.

Wish you have memorable time with us!
